

SIMPLIFYING SOLUTIONS

Customer Objective

Create a consistent environmental services program across a geographically diverse facility portfolio while reducing administrative burden and ensuring rapid response capabilities.

The Challenge

The customer operated numerous facilities across the United States supporting more than twenty-three brands. Service delivery, response times, project execution and reporting lacked consistency across locations and providers.

Sustain Solution

Sustain partnered with the customer and environmental consultant to build a centralized program focused on consistency, communication and execution.

Services included:

- ✓ Indoor Air Quality (IAQ)
- ✓ Asbestos, Mold & Lead Abatement
- ✓ HVAC Assessment & Upgrades
- ✓ Acoustical Engineering
- ✓ COVID-19 Response & Decontamination

One Program. Multiple Services. National Consistency.
